

Kid
MANUFACTURING, INC.

Introducing the latest in cutting edge technology designed to reduce unexpected down time and unnecessary expenses by keeping all your drains trash free and flowing smoothly.

The **Remove-Me-Not Strainer** is the latest advancement in reducing drain line maintenance and keeping your business running safely and efficiently.

Our product provides ideal protection against agonizing drain clogging, allowing you to concentrate on your operation without worrying about expensive plumbing bills and an unsanitary work environment.

Never call the plumber again because of silverware, broken dishes and glass, ramekins, corks or bottle caps.

The **Remove-Me-Not Strainer** eliminates the need to call the plumber by protecting your drains from these types of debris.
